

**ELKA**

**PROTECTION  
AGAINST  
EXTREMES**

**SINCE 1958**

A man with a beard and a black beanie is shown in profile, looking towards the right. He is wearing a heavy-duty fishing rain suit that is blue on the upper chest and black on the lower chest, with bright orange sections on the shoulders, sleeves, and lower body. The suit has a high collar and a small logo on the left chest that reads "FISHING XTREME". The background is a blurred view of a boat's deck, showing a circular hatch cover and some fishing gear.

## THE SEA - WIND AND WEATHER

A WORKPLACE THAT REQUIRES THE CORRECT WORKWEAR

The ocean covers nearly two thirds of the Earth's surface and large-scale commercial fishing - also known as industrial fishing - is one of the largest global industries. There are many different methods to effectively catch a large variety of species of seafood, including the use of pole and line, trolling with multiple lines, trawling with large nets, and traps or pots. To this we can include freshwater fishing and breeding. In the following pages you will find a range of ELKA collections to cover all needs in the different areas of fishing.

Denmark is surrounded by water, making fishing a traditional and natural business in Denmark. Since ELKA's foundation in 1958 one of our main objectives has been the outfitting and protection of fishermen on the Danish fishing fleets. After sixty years of sending these heavy duty garments out to sea to work in severe weather conditions, we are proud to say that they stand up to the test every time. Maybe you have noticed the yellow ELKA braces around the dock areas?

Havet dækker næsten to tredjedele af jordens overflade, og industrifiskeri er én af verdens største industrier. Der findes mange forskellige metoder til effektivt at fange et stort udvalg af fiskearter, herunder brug af linefiskeri, trolling med flere liner, trawling med store net og fælder eller gryder. Til dette kan vi også inkludere ferskvandsfiskeri og hav- og dambrug. På de følgende sider finder du en række ELKA-kollektioner, der dækker alle behov inden for de forskellige fiskeområder.

Danmark er omgivet af vand, og fiskeri er en traditionel, og dermed også en oplagt naturlig industri i Danmark. Siden ELKA's begyndelse i 1958 har et af vores fokus været at iklæde og beskytte fiskerne i de danske fiskeflåder med olietøj, som kan holde dem tørre på havet under svære vejrforhold. Vi er stolte af at sige, at vi altid lever op til de strenge krav og høje forventninger. Måske har du bemærket de gule ELKA seler rundt omkring på havneområderne?

# EUROPEAN PRODUCTION

...AND THE QUALITY OF DETAILS

With a background in the frigid winter temperatures of Scandinavian fishing ports Elka provides protection from the elements with technological know-how and a wealth of experience used to produce waterproof garments.

The ELKA range of clothing for commercial fishing and food processing is based on more than 60 years of experience with wind- and waterproof workwear for professionals. Through many years of dedication to the European fishing industry, we have developed a wide assortment in close co-operation with the professional fishermen, who have great demands in relation to strength, comfort and functionality.

Our garments have been handmade in our own factories since the 1958, our fabric and materials are top of the line when it comes to sturdiness, fabric flexibility and comfort and it is subject to high testing standards at **European test institutes**. We offer a consistent **high quality**, with fast lead times to make sure that the main part of the ELKA assortment are always **available from stock**, so you can expect to have your garments available when you need them.

With a delivery time within 4-6 weeks, at a minimum order of only 50 pieces per style, we are also experts in bespoke manufacturing.

ELKA har tradition for at beskytte fiskerne mod blæst, regn og kulde i den skandinaviske natur. Hos ELKA bruger vi vores mangeårige erfaring, kombineret med et højt teknisk know-how, til at producere vind- og vandtæt arbejdsbeklædning.

ELKA's kollektion af arbejdstøj til kommercielt fiskeri og forarbejdning af fødevarer bygger på mere end 60 års erfaring med vind- og vandtæt beklædning til professionelle fagfolk. Gennem vores mangeårige dedikation til den europæiske fiskeindustri, har vi udviklet et bredt sortiment til de industrielle fiskere, som stiller høje krav til styrke, komfort og funktionalitet.

Siden 1958 har vi produceret på egen fabrik i Europa. Vores metervarer og trim er af højeste kvalitet, når det gælder holdbarhed, strækbare egenskaber og komfort. Produkter og metervarer er underlagt strenge teststandarder hos **europæiske testinstitutter**. Vi tilbyder en ensartet **høj kvalitet** med hurtige leveringstider for at sikre, at størstedelen af ELKA sortimentet altid er **tilgængeligt fra lager**, så du kan forvente at have dit arbejdstøj til rådighed, når du har brug for det.

Med en leveringstid på 4-6 uger, og et minimum på kun 50 stk. pr. model, er vi også eksperter indenfor private label produktion.

ALL TRIM IS OEKO-TEX 100 CERTIFIED

## EUROPEAN QUALITY SUPPLIERS

### PRESS BUTTONS – PRYM:

Original Prym snap button system. All press buttons are top-coated massive brass to prevent rust and corrosion. Top of the line German quality.

### TRYKKNAPPER – PRYM:

Original Prym trykknapsystem. Alle knapper er lavet af top-coatet massiv messing så de ikke rustet eller irrer. Tysk topkvalitet.

### ZIPPERS – YKK:

We use high quality YKK zippers in our products, as they have been tried and tested in extreme weather conditions over the years.

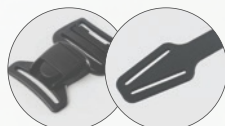

### LYNLÅSE – YKK:

Vi bruger lynlåse i høj kvalitet fra YKK, da de holder efter brug under ekstreme forhold.

### FIX-LOCK BUCKLES – ITW NEXUS EUROPE:

Buckles that stays closed under tearing, in a plastic quality that does not break easily.

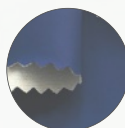

### FIX-LOCK SELESPÆNDER – ITW NEXUS EUROPE:

Spænder som forbliver lukkede når der trækkes i selen, i en god plastkvalitet som ikke knækker let.

### FABRIC:

We work with European fabric suppliers, to ensure delivery of a continuous high quality and short delivery times.

### METERVARER:

Vi arbejder med europæiske metervare leverandører, da de leverer en ensartet høj kvalitet med hurtige leveringstider.

### THREAD – GÜTERMAN:

We use top quality thread to ensure the lifespan of the product.

### TRÅD – GÜTERMAN:

Vi bruger tråd af højeste kvalitet for at sikre produkternes levetid.

### ELASTIC FOR BRACES – PFEIFFER:

Elastic webbing which keeps the quality and elasticity after strenuous use.

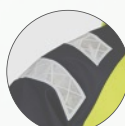

### ELASTIKSELER – PFEIFFER:

Elastisk vævet bånd, der holder kvaliteten og elasticiteten, selv efter gentagne stræk.

## FEATURES

### PRISMATIC REFLEX:

Prismatic reflective tape has a highly efficient return of light. A bright and tight beam extends much further giving Prismatic tapes an operating range beyond the thousand foot mark.

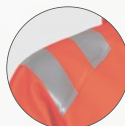

### PRISMATIC REFLEKS:

Prismatic refleks har et yderst effektivt returlys. Den lyse og koncentrerede stråle strækker sig længere end almindelig refleks, hvilket giver Prismatic refleksen et lysområde på over 300 meter.

### REFLECTIVE TAPE:

Reflective tape disperse light back in a wide spread, making it extremely bright up close but not as bright at a distance.

### REFLEKSBÅND:

Reflekterende tape giver et bredt returlys, hvilket gør det yderst effektivt på tæt hold, men som er aftagende på afstand.

### ELASTIC CUFFS:

Elastic cuffs is an effective way to reduce the amount of penetrating wind and water in the sleeve.

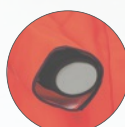

### ELASTIK VINDFANG:

Elastik vindfang er en effektiv måde at mindske mængden af gennemtrængende vind og vand op i ærmet.

### NEOPRENE CUFFS:

Neoprene cuffs closes tightly around the wrist and is the most optimal way to prevent wind and water from entering.

### NEOPREN VINDFANG:

Neopren vindfang slutter helt tæt omkring håndleddet og er den mest optimale måde at sikre, at der ikke trækker vind eller vand op igennem ærmet.

# FISHING XTREME

BY ELKA

The Fishing Xtreme is the **core collection** made of 100% waterproof heavy duty PVC/Polyester. The products are simply designed, always in solid florescent orange or with navy contrast, in a relaxed fit that makes it ideal for layering. The wide collection of oil and cold resistant garments with the yellow ELKA braces is known for the **high durability** and used by fishermen all over the world for **all-purpose fishing**.

Fishing Xtreme was where ELKA started out and we have collaborated with fishermen through more than 60 years to develop a range of clothing that live up to the requirements when working in this extreme environment. Quality and function go hand in hand to protect against the extremes of nature.

Fishing Xtreme er ELKA's **core kollektion**, lavet af 100% vandtæt og kraftigt PVC/ Polyester, altid i ensfarvet fluorescerende orange eller med marine kontrast. Produkterne er lavet i et enkelt design og rummelig pasform, der gør den ideel som overtrækstøj. Den brede kollektion af olie- og kuldebestandigt regntøj med de gule ELKA seler er kendt for den **lange produktlevetid** og anvendes af fiskere over hele verden, til **alle typer af fiskeri**.

Fishing Xtreme kollektionen så sit lys i de første år af ELKA's historie og vi har samarbejdet med fiskere gennem mere end 60 år, for at udvikle en kollektion af regntøj, der lever op til kravene i dette ekstreme miljø. Kvalitet og funktion går, for os, hånd i hånd for at beskytte mod de ekstreme naturforhold.

We choose ELKA because our main criteria is the freedom of movement and a soft material when it comes to heavy duty workwear. ELKA keeps us dry all day in pouring rain.

- Jan, Fisherman  
"Gutterne på kutterne"  
TV2 Denmark, Danish television

Vi vælger ELKA, fordi det er vigtigt for os at vi kan bevæge os i det tunge olietøj og så er materialet blødt. ELKA's fisketøj holder os tørre hele dagen i silende regn.

- Jan, Fisker  
"Gutterne på kutterne"

# ELKA

## UNLIMITED

The UNLIMITED collection features a range of high **visibility** fluorescent yellow and navy contrast garments with reflective details, which provides safety both on the ship as well as when working on the docks. ELKA UNLIMITED is the **premium collection** of garments produced in a soft and heavy duty PVC quality with oil resistance and excellent cold-weather properties. The products have high end Prismatic reflective tape, with a highly efficient return of light. A brighter and tighter beam extends much further giving prismatic tapes an operating range beyond the thousand foot mark.

The relaxed fit of the products makes them ideal for layering and the longer back panel provides added protection, while working at sea. These top of the line products also offer neoprene cuffs as a standard feature as well as extra reinforcements in the most exposed areas of the torso and legs for **extra abrasion resistance** and durability.

UNLIMITED kollektionen består af en serie fluorescerende gult og marine regntøj med forskellige refleksdetaljer, der giver ekstra sikkerhed og **synlighed** for fiskeren både på skibet og i arbejdet på havnepladserne. ELKA UNLIMITED er vores **premium kollektion**, fremstillet i blød og kraftig PVC kvalitet med fremragende olie- og kuldebestandige egenskaber. Produkterne har high-end Prismatic refleks, med et yderst effektivt returlys. Den lyse og koncentrerede stråle strækker sig meget længere end en almindelig refleks, hvilket giver Prismatic refleksen et lysområde på over 300 meter.

Produkternes rummelige pasform gør dem ideelle til at kunne iføre sig flere lag og det længere bagstykke giver ekstra beskyttelse på ryggen, mens du arbejder på havet. Disse kvalitetsprodukter har som standard også neoprenmanchetter i ærmerne, samt **ekstra forstærkninger** på de mest udsatte områder af torso og ben for ekstra slidstyrke og holdbarhed.

# FABRICS

The advantages of the ELKA quality lie in the production and the treatment of the fabric we use. Our fabric is developed in collaboration with innovative European producers and meet the requirements of REACH, meaning that the fabrics are safe to wear and free from harmful chemicals banned in the EU.

The fabrics have high water columns, making the garments ideal for rough seas and days of continuous rain.

Den største gevinst ved ELKA's kvalitet ligger i metervarens overfladebehandling. Vores metervarer er udviklet i samarbejde med innovative europæiske producenter og lever op til REACH, hvilket sikrer, at metervaren er sikker til kontakt med huden og uden kemikalier, som er forbudte i EU.

Metervarerne har en høj vandsøjle, hvilket gør produkterne specielt egnede til arbejde i hård sø og dage med silende regn.

The fabrics used for the ELKA industrial fishing collection is cold- and fish oil resistant. This means that the marked products are especially durable when working in cold weather – down to -30°C, as the fabric does not crack or become stiff. Furthermore the resistance against fish oils make it optimal for this line of work, as the fabric does not deteriorate.

Vores PU og PVC er kulde- og oliebestandigt. Det betyder, at de markerede produkter er særligt holdbare, når der arbejdes i koldt vejr, ned til -30°C, da stoffet ikke krakelerer eller bliver stift. Endvidere gør tolerancen mod fiskeolier det ekstra holdbart, da metervaren ikke går i opløsning og ødelægges.

# NORDIC FISHING

BY ELKA

The Nordic Fishing collection is developed in collaboration with European fishermen, to provide garments where focus is on the **freedom of movement** compared to traditional heavy duty PVC. Working in this industry sometimes requires a tough and durable garment, which at the same time is flexible and stretchable. This collection of workwear is comprised of a variety of medium duty PVC fabrics, where a **lighter and stretchable** material on the back and hood enhance comfort and movement. All fabrics are oil and cold resistant and with a focus on details and **functionality**.

The jacket is made shorter and the sides of the bib and brace is made higher, to make sure the water does not come inside while working. This creates much freedom of movement but does not compromise the waterproof qualities. The high chin offer possibility of tight closure around the head, preventing water and wind from entering.

Nordic Fishing er udviklet i samarbejde med de europæiske fiskere, så ELKA kan levere tøj, hvor der er ekstra fokus på **bevægelsesfrihed** i forhold til det traditionelle kraftige olietøj. Denne kollektion af arbejdstøj består af en række forskellige PVC-metervarer, med et **lettere og strækbart** materiale på bagsiden og hætte forbedrer komfort og bevægelse. Alle metervarer er olie- og kuldebestandige, og produktet er lavet med fokus på detaljer og **funktionalitet**.

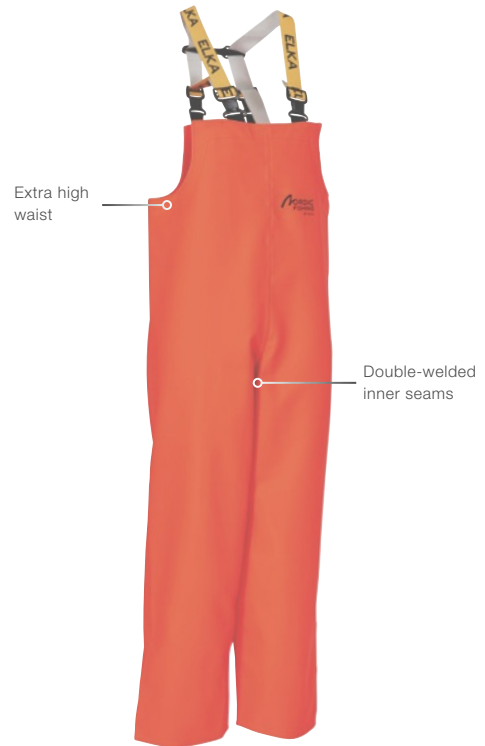

For produkterne gør det sig gældende, at jakken er lavet kortere, og siderne på den synlige overall er lavet højere for at sikre, at vandet ikke kommer ind, mens du arbejder. Dette skaber bevægelsesfrihed, men kompromitterer ikke de vandtætte kvaliteter. Den høje halslukning giver mulighed for at slutte hæften helt tæt omkring hovedet og forhindrer vand og vind i at trænge ind.

At Enterprises Shippagan Ltd, we are privileged to have Elka in our line of products. The brand is very well known in Canada and appreciated by all our clients. The demand for Elka suits increases every year. The line has proven to be very consistent and the quality is second to none. There is no doubt, Elka is top brand in our part of the world.

- Purchase Adam Chiasson

Chez Entreprises Shippagan Ltée, nous sommes privilégiés d'inclure Elka dans notre gamme de produits. La marque est bien connue au Canada et apprécié par nos clients. La demande pour les habits Elka ne cesse d'augmenter d'année en année. C'est preuve d'un produit constant et de haute qualité. Elka est, sans aucun doute, la marque hors-pair dans notre coin du monde.

- Purchase Adam Chiasson

“ELKA has been chosen by Icelandic fisherman for over 20 years. The strength and comfort of the fabric is perfect for the harsh work situation that they endure every day. This quality is what gives ELKA the advantage needed for the Icelandic fisherman.”

- Branch manager Jon Gauti Dagbjartsson

„Sjómenn á Íslandi hafa notað ELKA sjófatnað í meir en 20 ár. Styrkleikinn í efninu og þægindin eru fullkomin fyrir þær aðstæður sem þeir þurfa þola alla daga. Gæðin í Elka sjófatnaðinum er það forskot sem íslenski sjómaðurinn þarf gegn öflum náttúrunnar.“

- Branch manager Jon Gauti Dagbjartsson

...WHY CHOOSE ELKA?

# FOOD PROCESSING INDUSTRY

---

The ELKA PU range of clothing and accessories is best known for its **high quality** and fabric flexibility, which assure high efficiency and safety in the line of work – factors that are essential for optimal performance while working and the work comfort of the employees. The PU fabrics used for the food processing section is **antibacterial**, to prevent festering of bacteria in the fabric.

These garments are specifically designed and built for work in wet environments. This applies e.g. to the food processing industries, wet-room cleaning, fish farming and production on the ship.

The label “Glass & Fork”, refers to a waterproof garment, approved for use in the food processing industry. The fabric meets the 1935/2004/EC regulation and has been produced in accordance with the 2023/2006/EC regulation.

Furthermore, it is **EN 1186 migration tested** and approved for food contact durations of up to 10 minutes and is suitable for contact with all types of food under these conditions. The fabric also meets the requirements of REACH and the Oeko-Tex® 100 standard.

ELKA Rainwear A/S is registered with the Ministry of Food, Agriculture and Fisheries, and is subject to annual controls from the Danish Veterinary and Food Administration (DVFA), to make sure that we live up to the requirements at all time. This Audit Report is available at [www.elkarainwear.dk](http://www.elkarainwear.dk).

ELKA's sortiment af PU produkter og tilbehør er bedst kendt for sin **høje kvalitet** og metervarens strækbarhed, hvilket sikrer høj bevægelighed og effektivitet under arbejdet – faktorer, der er afgørende for arbejdets udførelse og komforten for brugeren. PU-metervaren, der anvendes til fødevarerindustrien, er **antibakteriel** for at forhindre opbygning af bakterier i stoffet.

Disse beklædningsgenstande er specielt designet og bygget til arbejde i våde miljøer. Dette gælder f.eks. til fødevarerindustrien, rengøring af produktionsanlæg, hav- og dambrug og produktion ombord på skibet.

Mærket Glas & Gaffel viser, at der er tale om vandtæt beklædning, som er godkendt til brug ved arbejdsopgaver i fødevarerindustrien. Metervaren overholder Regulativ 1935/2004/EC og er produceret i henhold til Regulativ 2023/2006/EC.

Den er **EN 1186 migrationstestet** og godkendt til kortvarig kontakt med fødevarer, dvs. op til 10 minutter. Metervarer, der anvendes i Glas og Gaffel produkterne, opfylder desuden kravene til REACH samt Oeko-Tex® Standard 100.

ELKA Rainwear A/S er registreret hos Ministeriet for Fødevarer/Landbrug og Fiskeri, og underlagt årlige kontroller fra Fødevarerstyrelsen - FVST. Kontrolrapporten er tilgængelig på [www.elkarainwear.dk](http://www.elkarainwear.dk).

# STAY WARM

---

ELKA thermal clothing keeps you warm and is highly flexible when it comes to **rapid temperature changes**, as can be met when working in the docking areas of the fishing ports. The clothes are comfortable to wear and offers maximum mobility, while providing good insulation in warm and cold environments.

Our products are developed and adapted for general work in the fishing and food processing industry. Our standard fabric is available as a 200g or 280g quality and consists of three layers, which are welded together with ultrasound, instead of being sewn. This is done for **hygienic** reasons, as it provides a smaller breeding ground for bacteria.

For industrial use, we especially recommend the white thermal clothing as it can be washed at up to 95° C.

ELKA termotøj luner og er ideelt til arbejde i f.eks havnemiljøer med **hurtige temperaturskift**. Tøjet er behageligt at have på og giver maksimal bevægelighed samtidig med, at det har **isolerende** egenskaber i både varme og kolde omgivelser.

Vores produkter er udviklet og tilpasset til generelt arbejde inden for fiskeri- og fødevarerindustrien. Vores standard metervarer fås både som en 200g eller 280g kvalitet. Den er bygget op omkring tre lag stof, der er svejset sammen med ultralyd i stedet for at være syet. Dette er langt mere **hygiejnisk**, da det giver mindre grobund for bakterier.

Til industrielt brug anbefaler vi især de hvide termoprodukter, da disse kan kogevaskes.

# SYMBOLS

A QUICK OVERVIEW OF ALL ICONS AND SYMBOLS

## ZIPPER IN LEGS

The symbol is attached to ELKA trousers with zipper in legs. This facilitates the application and removal of the clothes.

## LYNLÅS I BEN

Symbolet findes ved arbejdsbukser, hvor der er lynlås i benene. Dette letter påføring og aftagning af overtrækstøjet.

## ELKA WINTER

The symbol is attached to the insulated and windproof products in the ELKA Winter collection.

## ELKA WINTER

Symbolet findes ved de forede og vindtætte produkter i ELKA's vintersortiment.

## WINDPROOF, WATERPROOF AND BREATHABLE WORKWEAR

The symbol is attached to ELKA workwear which is windproof, waterproof and breathable.

## VINDTÆT, VANDTÆT OG ÅNDBART ARBEJDSTØJ

Symbolet findes ved arbejdstøj som er vindtæt, vandtæt og åndbart.

## FISH OIL RESISTANT

The fabric is tested for fish oil resistance. This means that the fabric does not dissolve and thus destroyed by contact with fish.

## FISKEOLIE RESISTENT

Metervaren er testet i forhold til fiskeolie resistens. Det betyder at metervaren ikke går i opløsning og dermed ødelægges ved kontakt med fisk.

## COLD RESISTANT

The fabric is tested against cold and is therefore particularly suitable when working in cold weather, down to -30°C, as the fabric does not crack or become stiff.

## KULDE BESTANDIG

Metervaren er testet mod kulde og er derfor særligt velegnet, når der arbejdes i koldt vejr, ned til -30°C, da stoffet ikke krakelerer eller bliver stift.

## PROTECTION AGAINST RAIN

European standard for protective clothing. Standards for test method and requirements for fabric, seams and functionality. Applies to both waterproof and breathable qualities.

## BESKYTTELSE MOD REGN

Europæisk standard for beskyttelsesbeklædning. Standard for testmetode og krav til metervarer, sømme og funktion. Angår såvel vandtæthed som åndbarhed.

## PROTECTIVE CLOTHING AGAINST LIQUID CHEMICALS

Performance requirements for clothing with liquid-tight (type 3) or spraytight (type 4) connections, including items providing protection to parts of the body only (types PB (3) and PB (4)).

## BESKYTTELSESBEKLÆDNING MOD FLYDENDE KEMIKALIER

Ydelseskrav til dragter med væsketætte (type 3) eller spraytætte (type 4) samlinger, inklusive beklædningsstykker, som kun giver beskyttelse til dele af kroppen (type PB (3) og PB (4)).

## HIGH-VISIBILITY WARNING CLOTHING

Standards for the requirements for garments that ensure the visibility of the wearer. Both the fluorescent material and the reflective bands have to be used for approved visibility.

## SIKKERHEDSBEKLÆDNING MED KRAV TIL HØJ SYNLIGHED

Standard for kravene til beklædning som sikrer brugerens synlighed. Både det flouriserende materiale og refleksstriberne skal benyttes for godkendt synlighed.

## GLASS AND FORK

Glass & Fork fabric meets the 1935/2004/EC regulation and has been produced in accordance with the 2023/2006/EC regulation. It is EN 1186 migration tested and approved for food contact durations of up to 10 minutes.

## GLAS & GAFFEL

Glas & Gaffel metervaren overholder Regulativ 1935/2004/EC og er produceret i henhold til Regulativ 2023/2006/EC. Den er EN 1186 migrationstestet og godkendt til kortvarig kontakt med fødevarer, dvs. op til 10 minutter.

# SIZE CHART

ELKA RAINWEAR SIZES

## HOW TO MEASURE

To achieve the best fit, we recommend that you get the help of another person while measuring. Measurements must be taken directly on the body in tight fit - but without cutting into the skin and preferably while wearing tight fitting long underwear.

## SIZE CHART

All measurements in the size chart are in cm.

Our clothes are always standard stock in sizes XS - 3XL, some models also in 4XL and 5XL. These sizes can be ordered with a surcharge of 25%.
