SOLE

In order to avoid the high number of accidents caused by slipping danger, Giasco realized an **excellent anti-slipping product**.

This sole is called **Kube**, a young and sporty styled shoe equipped with a special gripping compound and specific cubic dowels with inverted profile in the outsole.

With thanks to these special characteristics Kube obtained the maximum certification against slipping: **jobs on inclined roofs** (UNI 11583:2015).

IDROTECH®
IDROTECH® is a leather treatment with the aim to optimize the water resistance and the foot perspiration. This particular tunning method, thanks to the used mineral salts, gives an excellent softness and a complete mechanical resistance to oils and hydrocarbons. The IDROTECH® leather is certified according to the norms ISO 4045, ISO 17075 and ISO 5403.
